

Phase I

Light Analysis

Every patent is analyzed with the end goal of a sale in mind. We look to find higher value patents, and as we review the patents consider potential customers and target products.

Phase II

Sell Level Claim Charting

To help both our client and their prospective buyers see the value in the high value patents, we chart the potential infringement of them. This is done professionally with a very high level of expert analysis and clarity.

Phase III

Financial Evaluation and Brokerage

We evaluate every patent in the portfolio financially and then place determine the value of the portfolio as a whole. We will package the portfolio for brokerage.
